To whom it may concern at
SWUMC —

As you can see by the form
I just filled out, I recently
had an injury & had to make
an emergency visit to your
hospital.

What a terrific experience
it was - I was seen immediately
I was given a shot for pain
immediately, the staff @ X-Ray was
literally WAITING for me - the doctor,
Dr. Dobson & his assistant - "Holly"
were caring, professional and

~~_____~~

~~_____~~

helpful. Not only that, my own
physician was called and
he said the stitches - which
were removed last Saturday -
the stitches were WELL DONE!!
I tried to find a person to
write a letter to as soon as
I arrived home, but could
not find the Hospital Administration's
name on line. Please let him
know, along with the ER Chief, how
very pleased I was with all
your services.

A lot WELL DONE!

Sincerely,

Ruth H. J. D.
